Creative Thinking – Management Experience

Motivation – Problem Solving – Adaptability

Teamwork – Positivity – Time Management

Communication – Helpfulness – Activity Coordination

Experience

Intern

09/2019 – 03/2021

Prosper IT Consulting, Portland, OR

C# ASP.Net MVC

Live development project using complex MVC 5 application for Portland Theatre Vertigo. Multiple web pages using C#, .Net, MVC, MS SQL, HTML, jQuery, and CSS. Created styling that fit with the project's overall theme. Created CRUD pages for the website. Created a database for storing current and previous productions. Styled the CRUD pages format to improve the aesthetics and usability for the user experience.

Python

Developed a Python application for a hotel website with a full concierge service using VS, PyCharm, and IDLE. Integrated Ticketmaster API so clients could buy concert tickets near the hotel during their stays. Database accessibility to details about upcoming visits.
